

I obtained a Bachelor of Commerce degree (Hons.) in accounting from the University of Ottawa, graduating magna cum laude. After graduation, I returned to Timmins and began my career in public accounting. I qualified as a Chartered Professional Accountant (CPA) (formerly known as Chartered Accountant (CA)) in 1998.

I am a Partner and Business Advisor in MNP's office in Timmins. With 25 years of experience, I deliver comprehensive assurance, accounting and advisory services to small- and medium-sized businesses, not-for-profit organizations and public sector entities such as municipalities and health units. Detail-oriented and client-focused, I perform audits, reviews and compilations, personal and corporate tax planning and compliance, financial statement preparation,

evaluation and implementation of internal controls as well as cash flow projections. My services include helping clients understand their financial statements so they can make strong decisions and consulting on a broad range of business issues and challenges. As I am fluent in both English and French, I can provide services in both official languages.

My community involvement includes serving as president and treasurer for the Cochrane District CPA Association and as treasurer for Credit Counselling Services of Cochrane District. In 2011, I received the Timmins Young Professionals' Prix des jeunes professional francophone award, an initiative of the Timmins Chamber of Commerce, in recognition of my contribution to the business community and the community at large.
